**Have your family and friends disowned you? Is it because you have committed a murder, became a drug addict, robbed a bank, told them you were gay? No, it is because you were searching for God and found Him in another faith.**

**TODAY MANY CATHOLICS WHO ATTEND SUNDAY MASS ARE SIMPLY GOING THROUGH THE MOTIONS FEELING SECURE THAT THEY HAVE ENOUGH RELIGION TO SUSTAIN THEM.** Some are empty inside and wondering why. Parishioners in this country are divided over outdated principles, doctrine issues, mistrust, the infallibility of the Pope, sexual misconduct among church leaders and refusal to recognize second marriages.

- The annual number of annulments has soared from 338 in 1968 to 50,000 in 2001.
- In 2005, fifty-five percent of Catholics say the Pope should let women be priests.
- In 2005, seventy-eight percent of Catholics polled say the next Pope should allow birth control.
- In 2005, forty-nine percent say the church should change her teachings on divorce.

In order to help others who are questioning their faith this author is candid about the internal struggles he faced as a Catholic. He boldly addresses sensitive subject matter which includes deep foundational beliefs such as re-baptism, the worship of Mary, the Council of Trent and praying to the saints.

### **Growing Up Catholic The Pursuit for Truth from tradition to satisfaction**

Is a true story of a man who grew up Catholic and at thirty-eight, after a tragic event in his life discovered that his faith could no longer

support him spiritually. Realizing he had been going through the motions of religion he sought to find the reasons why there was emptiness where so much religion had been before.

The book guides you through the deep and complicated Catholic beliefs and forces you to ask the question, **"Am I who I thought I was?"** You'll step into the shoes of a married man who questioned his faith then faced the turmoil and pressures that accompanies those doubts, only to discover answers that completely changed his life. This book brings to the forefront the guilt and struggles that come with leaving the Catholic Church while revealing the reasons why the Protestant faith completely altered his approach to life. You'll experience a personal journey into beliefs not easily talked about and discover answers that can literally change your life. Today that same man who questioned his Catholic faith is now an ordained Christian minister reaching out to help other Catholics and former Catholics with those same reservations and numbness towards church that he experienced.

**WHO ARE YOU WHEN NO ONE IS LOOKING?** Do you know what your answer would be? Have you seriously thought about it at all? This book helps solves those personal issues we are afraid to bring up. The author helps you answer the question, "Am I who I thought I was?"

Growing Up Catholic The Pursuit for Truth from tradition to satisfaction, is a powerful in-depth look on how one man's transition away from the Catholic Church at the age of thirty-eight completely changed his life. Today he is helping others with the struggles of church that he once faced.
